The 8th triennial seminar, after Roma INSEAN (1994), La Maddalena (1997), Siracusa (2000), Napoli (2003), Civitavecchia (2006), Brindisi (2009) and Roma (2012), will provide a new opportunity for scientists and engineers to present recent advances and to discuss current problems, future needs and prospects in the area of marine energies. Major topics and new trends will be introduced through keynote lectures that will be presented by internationally recognized experts.
