

## Author Instructions

### Submission of Papers

Authors are requested to submit their original manuscript and figures to:

Prof. Dr. Sun Y.Z., Editorial office of **Energy Exploration & Exploitation** (EEE), Hebei University of Engineering, Guangming South Street 199, Handan Hebei, China, Zip code: 056038 E-mail: [Sun-eee@hotmail.com](mailto:Sun-eee@hotmail.com)

Manuscripts will be reviewed by a minimum of two referees and will be considered for publication on the basis of originality of contribution. Manuscripts should be submitted in English.

Submission of a paper implies that it has not been published previously, that it is not under consideration for publication elsewhere, and that if accepted it will not be published elsewhere in the same form, in English or in any other language, without the written consent of the publisher. Only those papers that have not been submitted or published elsewhere, wholly or part, can be considered for publication. Authors must inform the editor if their manuscript has been submitted, and rejected, by another journal.

### Electronic Submission

Authors must submit an electronic copy of their paper with the final version of the manuscript. The electronic copy should match the hardcopy exactly.

### Manuscript Preparation

**General:** Manuscripts must be typewritten, double-spaced with wide margins on one side of white paper. Good quality printouts with a font size of 12 or 10 pt are required. The corresponding author should be identified (include a fax number and e-mail address). Full postal addresses must be given for all co-authors. An electronic copy of the paper should accompany the final revised version.

**Abstracts:** Each manuscript should be accompanied by an abstract of up to 300 words.

**Text:** Follow this order when typing manuscripts: Title, Authors, Affiliations, Abstract, Key words, Main text, Acknowledgements, Appendix, References, Figure Captions and then Tables. Do not import the Figures or Tables into your text. The corresponding author should be identified with an asterisk and footnote, which should contain this author's e-mail address. All other footnotes (except for table footnotes) should be identified with superscript Arabic numbers.

**References:** All publications cited in the text should be presented in a list of references following the text of the manuscript. The list of references should be arranged alphabetically by authors' names. References should be given in the following form:

Baker E.W. and Louda J.W., 1986. Porphyrins in the geological records. In: Johns, R.B. (Ed.), *Biological Markers in the Sedimentary Record*. Elsevier, Oxford, pp. 121-225.

Hunt J.M., 1996. *Petroleum Geochemistry and Geology*, 2nd Edition. Freeman, New York. pp. 256.

Lee G.S.H., Wilson M.A. and Young B.R., 1998. The application of the "watergate" suppression technique for analysing humic substances by nuclear magnetic resonance. *Organic Geochemistry* **28**, 549-559.

Sebestová E. and Machovic V., 1996. Investigation of low-temperature oxidation of brown coal by electron paramagnetic resonance and infrared spectroscopy. In: Krábek B. (Ed.), *Weathering of Organic Matter, Proceedings of the International Conference of IGCP 357, Organics and mineral deposits*, Prague, November 26-27, 1997. Czech Geol Survey, Prague, pp. 21-36.

Sun Y.Z., 1996. Geochemical evidence for multi-stage base metal enrichment in Kupferschiefer: Doctoral Thesis, RWTH Aachen, Shaker Verlag, Aachen, Germany, pp. 210.

**Illustrations:** All illustrations should be provided in camera-ready form, suitable for reproduction (which may include reduction) without retouching. Photographs, charts and diagrams are all to be referred to as "Figure(s)" and should be numbered consecutively in the order to which they are referred.

### Copyright

All authors must sign the "Transfer of Copyright" agreement before the article can be published. This transfer agreement enables Multi-Science Publishing Co Ltd to protect the copyrighted material for the authors, but does not relinquish the author's proprietary rights. The copyright transfer covers the exclusive rights of Multi-Science Publishing Co Ltd to reproduce and distribute the article, including reprints, photographic reproductions, microfilm or any other reproductions of similar nature and translations. This includes the right to adapt the article for use in conjunction with computer systems and programs, including reproduction or publication in machine-readable form and incorporation in retrieval systems. Authors are responsible for obtaining from the copyright holder permission to reproduce any figures for which copyright exists.

### Author Services

For queries relating to the general submission of manuscripts (including electronic text and artwork) and the status of accepted manuscripts, please contact Author Services:
